

ReliAlert™

One-Piece GPS Offender Monitoring Device

ReliAlert™ sets the standard for reliability and performance in the offender monitoring industry. Advanced features enable agencies to effectively track offender movements and communicate directly with offenders via on-board two/three-way voice communication technology, all in real-time. ReliAlert™ offers multiple monitoring options for agencies – collecting and reporting data as frequently as every minute to ensure critical information is available when needed. Working in conjunction with SecureAlert's 24/7/365 live Monitoring Center and TrackerPAL™ monitoring software, ReliAlert™ acts as a “force multiplier,” providing officers with extra eyes, ears and voice in the monitoring of offenders—increasing productivity and offering peace of mind.

Two/Three-Way Voice Communication

enables SecureAlert operators and agency officers to call the offender via the ReliAlert™ device at any time – providing real-time violation intervention and reducing the effort spent by officers attempting to communicate with offenders.

HomeAware™ Beacon

Embedded RF Technology allows the ReliAlert™ device to work in conjunction with SecureAlert's HomeAware™ Beacon, providing RF tracking when the offender comes into range. This combination of tracking technologies increases the ability to maintain and report accurate location information.

Onboard 95-db Siren is a unique feature on the ReliAlert™ device that can be activated by the SecureAlert Monitoring Center as part of a violation protocol. The siren alerts victims and the public to an offender violation, helps safely assist officers with offender recovery and improves public safety.

ReliAlert™ Features

ReliAlert™ Specifications

- ▲ **GPS Operation:** updates location and assesses compliance every 2 seconds
- ▲ **GPS Accuracy:** 6 ft (1.8m) in optimal conditions; within 50 ft (15m) under normal operating conditions
- ▲ **GPS Anti-jamming:** advanced, adaptive digital filtering (25 db improvement over conventional GPS receiver)
- ▲ **On-Board Processing:** zones and curfews stored on-device are assessed for compliance every 2 seconds
- ▲ **Battery Performance:** 30-36 hours of operation at one-minute tracking and reporting intervals (< 2 hours charge time)
- ▲ **Battery Life:** 400 recharge cycles
- ▲ **Data Communication:** automatic switching across multiple carriers including AT&T and T-Mobile; data transport via GPRS and SMS (alarms)
- ▲ **On-Board Voice Communication:** two/three-way voice communication available at any time
- ▲ **Siren:** 95-decibels, activated via TrackerPAL™ software by Monitoring Center or agency officers
- ▲ **Memory Storage:** 5 days at one-minute tracking and reporting intervals
- ▲ **Multiple Monitoring Levels:** available via the TrackerPAL™ software – no equipment change required
- ▲ **Tracking/Reporting Interval:** configurable to as often as every minute
- ▲ **Embedded RF Technology:** works in conjunction with HomeAware™ Beacon
- ▲ **Alerts:** voice, siren, LED, vibration, audio tones
- ▲ **Anti-Tamper Capability:** strap and case tamper technology
- ▲ **Standard Strap:** pre-sized and cut-resistant with fiber-optics for tamper detection
- ▲ **Dimensions:** 4.25" x 3.5" x 1.25" (2" @ battery bulge) - 10.7 x 8.8 x 3.1 cm
- ▲ **Weight:** 9.87 oz (280g)
- ▲ **Waterproof:** 10 ft (3m)
- ▲ **Operating Temperatures:** -4 to +140 F (-20 to +60 C)
